

VENUS VERSA

Combines 3 of the top most in-demand treatments.

The most versatile multi-application platform that provides the most in-demand non-surgical aesthetic procedures. It's the one workstation that combines three unique technologies: (1) Intense Pulsed Light (IPL) with SmartPulse™ and advanced real-time cooling, (2) NanoFractional RF™ with SmartScan™, and (3) proprietary (MP)² technology, which combines Multi-Polar Radio Frequency (RF) and Pulsed Electro Magnetic Fields (PEMF). Venus Versa™ is the most adaptable device for the needs and growth of your business, enabling you to maximize treatments and yield the highest possible ROI.
